PROFESSIONAL EXPERIENCE

Nova Media Group / Remote

Senior Frontend Software Engineer

May 2024 – Current

- **Led UI/UX Design & Frontend Rebuild:** Participated in the migration and frontend overhaul of a legacy platform into a modern web builder application using Next.js, improving performance by reducing load times and interaction latency through a redesigned UI/UX architecture.
- **Team Leadership & Mentorship:** Managed and mentored a team of junior developers, providing technical guidance, conducting code reviews, and fostering a collaborative development culture.
- **Agile Collaboration:** Actively participated in daily standups, offering technical input and updates that shaped project direction and delivery.

Service.ly / Tampa, FL

Associate Frontend / Full-Stack Software Engineer

April 2023 – December 2024

- **Enhanced Digital Media Management:** Led the development of high-impact features using **React** and **Next.js**, aligning with the company's goal of improving user experience and digital media management, resulting in an increase in user engagement.
- **Core Infrastructure Contribution:** Played a pivotal role in enhancing the core frontend infrastructure, including the design system and **CI/CD pipelines**, contributing to a reduction in deployment times.
- **Reliability Maintenance:** Handled on-call responsibilities and support tickets to ensure uptime and fast resolution of production issues.
- **AI Integration:** Implemented AI-powered content generation tools into the platform, improving user workflows and expanding the builder's functionality.

Gods & Titans NFT / Remote

Senior Frontend / Full-Stack Software Engineer

December 2021 – March 2023

- **New Minting Strategy Design:** Led the development of backend integrations using **Node.js** and **API frameworks**, enhancing transaction reliability by 30%.
- **Blockchain Transaction Security:** Designed and implemented scalable solutions, applying **design patterns** to optimize performance and maintainability.
- **User-Centric Dashboard Design:** Built responsive, user-focused dashboards with **React**, improving client satisfaction scores by 15%.
